## Information about Copyrighted Content

Some instruments administered for studies archived with ICPSR may contain in whole or substantially in part contents from copyrighted instruments. Reproductions of the instruments are provided as documentation for the analysis of the data associated with this collection. Restrictions on "fair use" apply to all copyrighted content. More information about the reproduction of copyrighted works by educators and librarians is available from the United States Copyright Office.

## NOTICE WARNING CONCERNING COPYRIGHT RESTRICTIONS

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted material. Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specified conditions is that the photocopy or reproduction is not to be "used for any purpose other than private study, scholarship, or research." If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excess of "fair use," that user may be liable for copyright infringement.

#### **Variable Description and Frequencies**

**Note: Frequencies displayed for the variables are not weighted. They are purely descriptive and may not be representative of the study population. Please review any sampling or weighting information available with the study.**

**Summary statistics (minimum, maximum, mean, median, and standard deviation) may not be available for every variable in the codebook. Conversely, a listing of frequencies in table format may not be present for every variable in the codebook either. However, all variables in the dataset are present and display sufficient information about each variable. These decisions are made intentionally and are at the discretion of the archive producing this codebook.**

The next questions are about AMPHETAMINES and OTHER STIMULANT DRUGS, which are sometimes prescribed by doctors for people who have trouble paying attention, are hyperactive, have ADHD, or have trouble staying awake. Drugstores are not supposed to sell them without a prescription from a doctor.

Amphetamines are sometimes called: Uppers, Ups, Speed, Dexies, Pep Pills, Diet Pills, Meth or Crystal Meth. They include the following drugs: Dexedrine, Ritalin, Adderall, Concerta, Vyvanse, Methamphetamine.

IN YOUR ANSWERS ABOUT AMPHETAMINES AND OTHER STIMULANT DRUGS, DO NOT INCLUDE ANY NON-PRESCRIPTION OR OVER-THE-COUNTER DRUGS.

Have you ever taken amphetamines or other stimulant drugs because a doctor told you to use them?
